EDUCATION

PhD in Computer Science at the Georgia Institute of Technology	2025 - present
◦ Algorithms, Combinatorics and Optimization (ACO) program	
Bachelor of Computer Science at the University of Waterloo	2020 - 2025
◦ Minor in Combinatorics and Optimization	
◦ Dean's Honours (92% GPA)	

RESEARCH EXPERIENCE

University of Waterloo C&O department

Directed Research Program Mentee	Jan 2025 - April 2025
Formalized Tutte's linking theorem, a generalization of Menger's theorem to matroids, using the proof assistant Lean.	

Undergraduate Research Assistant	May 2024 - Aug 2024
Developed and proved approximation algorithms for the NP-complete minimum multicut problem for certain subclasses of planar graphs, supervised by Dr. Cheriyan. I also presented relevant background for our research at the Canadian Undergraduate Math Conference .	

AWARDS

University of Waterloo

Jessie W.H. Zou Memorial Award	2025
Given annually to 1-2 undergrad math faculty students, for excellence in research	
Canada Graduate Research Scholarship – Master's (Declined)	2025
Awarded to top incoming graduate students demonstrating research potential	
National Math Scholarship	2020-2025
Mathematics Undergraduate Research Award	2024
President's International Experience Award	2022

WORK EXPERIENCE

Data Science Research Co-op <i>Odaia Intelligence Inc.</i>	Jan - Apr, Sep - Dec 2023
Applied Data Intern <i>MNP Digital</i>	May - Aug 2022
Software Engineering Co-op <i>Ford Motor Company</i>	Sep - Dec 2021

EXTRA-CURRICULAR

Nationally-Competing Synchronized Swimmer	2014-2025
4th in senior free duet category (Canadian National Championships)	
3rd in duet category (Canadian University League Nationals)	
1st in duet category (Canadian University League Eastern Championships)
